## PROFILE

Possibilities to create something unique and helpful using modern technologies made me excited and passionate about web development.

I am an attentive to detail go-getter with a background in Software Testing and a consuming passion for quality.

I believe my curiosity and strong desire to learn new things will be a key asset for building high quality fully-functional apps.

## SKILLS

HTML, CSS, SCSS, JavaScript, Node.js, React, Express.js, MySQL, Agile Development, APIs, OAuth, Heroku, Git, Jest, Firebase, Jira, Cypress, Zephyr Scale

## EXPERIENCE

### QA Tester/ Junior Developer | Intergalactic Agency Inc

APR 2021 - NOV 2022, VANCOUVER, CANADA

- Established QA processes within the organization over working on 12 projects as an integral part of the software development team, together with designers, project managers, and developers
- Enhanced the quality of software products by performing manual and automated testing (functional, UI, UX, performance, security, accessibility, API, cross-browser testing of mobile and web applications)
- Created detailed, comprehensive testing documentation (test cases, test scripts, test plans, test reports, bug reports, internal QA documentation) on Zephyr Scale, Jira, and Confluence

### Software Test Engineer | Yandex

SEP 2020 - MAR 2021, VANCOUVER, CANADA

- Reduced amount of software issues by conducting functional and regression testing of various kinds of applications: web, mobile, desktop

## EDUCATION

### BrainStation | Diploma, Software Engineering

JAN 2023 - APR 2023, VANCOUVER, CA

### Hitek Computer School | Certificate in Software QA

NOV 2020 - APR 2021, VANCOUVER, CA

### Belarusian State University | Diploma, Software Engineering

SEP 2018 - FEV 2020, MINSK, BELARUS

### High-Tech Park IT-Academy | Certificate in Functional Testing

MARCH 2017 - MAY 2017, MINSK, BELARUS

### Perm State Pedagogical University | Master's degree, Teacher of the Russian Language and Literature
