PROFILE

Possibilities to create something unique and helpful using modern technologies made me excited and passionate about web development.

I am an attentive-to-detail go-getter with 3+ years of hands-on experience in web development and a background in Software Testing.

I believe my experience and a strong desire to learn new things will be key assets for building high-quality fully-functional apps.

SKILLS

HTML5, CSS, Sass, JavaScript, TypeScript, Mantine, TailwindCSS, React.js, Next.js, Node.js, StoryBook, Express.js, MySQL, Sanity, REST APIs, AWS Cloud, Git, Firebase, Jira, Cypress, Puppeteer, Agile, SEO, JSON, AJAX, EJS

EXPERIENCE

Full-Stack Software Engineer | Freelance
MAY 2023 - PRESENT, REMOTE

- Translating mock-ups into web pages that are accessible, performant, and user-friendly using Next.js, React.js, JavaScript, TypeScript, Tailwind CSS
- Utilizing Sanity CMS to manage and organize content effectively, allowing for easy updates, modifications, and additions to the website's data
- Integrating user-facing elements with server-side logic

Software Engineer | Intergalactic Agency Inc
APR 2021 - AUG 2023, VANCOUVER, CANADA

- Implemented and maintained single-page web applications using JavaScript, HTML5, CSS, React.js, SQL, TypeScript, StoryBook, Mantine, Next.js, Sanity CMS
- Built serverless applications for customers using Node.js, Puppeteer, and AWS Cloud (AWS S3 bucket, AWS Lambda functions, AWS Bridge)
- Enhanced the quality of software products by performing automated E2E testing using Cypress
- Assisted the Agile development team in troubleshooting issues, identifying, and fixing software bugs to ensure an enhanced user experience

Software Test Engineer | Yandex
SEP 2020 - MAR 2021, VANCOUVER, CANADA

- Reduced amount of software issues by conducting functional and regression testing of various kinds of applications: web, mobile, desktop
- Crafted precise test cases reflecting functional and non-functional requirements
- Flagged and communicated software problems and flaws

EDUCATION

BrainStation | Diploma, Web Development
JAN 2023 - APR 2023, VANCOUVER, CA

Hitek Computer School | Certificate in Software QA
NOV 2020 - APR 2021, VANCOUVER, CA

Belarusian State University | Diploma, Software Engineering
SEP 2018 - FEB 2020, MINSK, BELARUS

High-Tech Park IT-Academy | Certificate in Functional Testing
MARCH 2017 - MAY 2017, MINSK, BELARUS

Perm State Pedagogical University | Master's degree, Linguistics
SEP 2007 - JUN 2012, PERM, RUSSIA

PROJECTS

My Travel Book app

- Responsive full-stack CRUD web application
- Built using React.js, Sass, MySQL, Node.js, and Express.js
- Facilitated photo organization and storage functionalities

BookCase app

- Modern full-stack Next.js 13 application
- Created using TailwindCSS, Next-Auth, MongoDB, Mongoose, AOS library
- Simplified the process of posting book information and connecting with individuals to acquire it
